

使用滑動選單

1. 在 XML 中加入 NumberPicker

```
<NumberPicker
    android:id="@+id/numberPicker"
    android:layout_width="120dp"
    android:layout_height="wrap_content" />
```

2. 在代碼中設置最小值，最大值和默認值

```
numberPicker = findViewById(R.id.numberPicker)
numberPicker.minValue = 100
numberPicker.maxValue = 200
numberPicker.value = 150
```

3. 如果想顯示的是文字

```
amNumberPicker = findViewById(R.id.amNumberPicker)
amNumberPicker.minValue = 0
amNumberPicker.maxValue = 1
amNumberPicker.displayedValues = arrayOf("AM", "PM")
```
