

Test project

2024 Invitational Friendly Guangzhou Mobile Applications Development

Team Colombia

Introduction

Stroop Challenge is a game designed to challenge and improve your cognitive skills while having fun. Based on the famous "Stroop Effect", this game presents you with a series of mental speed and accuracy challenges that will test your ability to process and respond to information quickly and accurately.

Description of project and tasks

Module:

- The competitor must create a complete mobile application and an installable APK (Android) or app(iOS) file depending on the operating system chosen.
- Emulator: Android - Pixel7 API 30, iOS - iPhone 8 Plus -.
- Create an app taking as reference the provided prototype.
- The competitor can NOT change the prototype because the company's design team already did the market research and decided this GUI design.
- Must use the application icon according to the prototype (logo, symbol) and the Launcher Icon in the installed app.

Module time

2.5 hours

1. Splash and Welcome Screen

	
Splash Screen	Nickname Screen
• Create a Splash Screen and Nickname Screen. • The created screens must match the content of the prototype. • When opening the app, the Splash Screen must be shown for 3 seconds and then go to the Nickname Screen. • By clicking on the following button () you should be directed to the Game Screen • The Game Screen should display the selected name and avatar according to prototype.	

2. Game Screen

 Stroopy  Score: 0 Christian BLUE    	 Stroopy  Score: 1 Christian PURPLE     Lose
Game Screen	Game Screen (when lose)
• The Game screen displays one of the following words in capital letters and randomly: Blue, Yellow, Purple, Red, Green, Orange. • The word must be randomly painted with one of these colors: Blue, Yellow, Purple, Red, Green, Orange. • Since there are 6 colors and only 3 answer choices, there must always be a match between the word and the color shown on the screen. • The player will only have 2 seconds to answer • Every 500 milliseconds one quarter of the white line must be removed from the answer options.	

- If the player answers correctly, a point is added to the top of the score and a random word and color is displayed again.
- If you do not answer or your answer is wrong, the game is over.
- When a player loses he should be redirected to Ranking Screen 2 seconds later.

3. Ranking Screen

 Stroopy  Christian Ranking  Yixiao Score: 15  Min Li Score: 10  Park Score: 4  Kim Do Score: 4  Christian Score: 1 Select a player from the top or Play again New player	Ranking Screen - Ranking Screen should show the last 9 highest scores from highest to lowest and the player's name and avatar. - The name of the player who has just finished the game and his avatar should be displayed at the top of the screen. - You can replay the game by selecting a player's avatar or name from the list. - You can play again by selecting the Play Again button, and you must play with the player who just finished the game. - You can play again by selecting the New Player button and it should go to Nickname Screen.
--	--

4. Fonts and Colors

Font sizes and colors match, agree, similar or equal to the prototypes.					
					
#FFC700	#00A991	#C00DCF	#CF0505	#10A8FE	#FFA500

Competitor Instructions

1. The application icon must be this:
2. The generated APK is evaluated.
3. Link to prototype: <https://www.figma.com/file/B5qGlrY71sxOI7jP1olqBL/Stroopy?type=design&node-id=0%3A1&mode=design&t=L4dYk43PyHtjlr3v-1>
